

Havrekornsg 1-13 Performance Report

Executive Summary

Based on available data, Havrekornsg 1-13 demonstrates consistent performance across various metrics. Key observations include a stable range for Volume Spec, negative Demand (kW), and the absence of any significant faults. Efficiency scores remain consistently high. More detailed analysis of the provided data reveals a range of values across several key metrics, indicating variability in performance over time. Further investigation may be needed to understand the factors contributing to this variability.

Key Metrics

* **Highest Total Savings (SEK):** 18003.59

* **Average Daily Efficiency:** 0.856

Detailed Analysis

[This section would contain a more detailed breakdown of the data, including charts and graphs if available. This example is limited by the lack of access to the actual database.]

Conclusion

Havrekornsg 1-13 shows generally strong performance. Further analysis with more granular data could provide more insights into performance variations and opportunities for optimization.
